ALEXETTE

(Alexanderi 'Westonbirt' × Janette)

ALEXFRIDA

(Alexanderi 'Westonbirt' × Elfrida)

These two Cymbidiums have provided a sensation wherever they have been exhibited. Since 1952 when they began flowering, they have received 18 F.C.C.'s and A.M.'s, as well as numerous silver and bronze medals.

They have also been awarded Best of Show at the Santa Barbara Cymbidium Show for the past two years.

We offer propagations of these outstanding Award varieties at from \$150.00 to \$450.00.

We also offer clones from 230 plants of these two crosses which had to be lifted from beds in 1954. Less than 10% of these plants have flowered. Those that did flower were not marked in any way. They were, however, all of exhibition quality.

We offer propagations with one new growth at least 10" high, at \$50.00 per plant; those with 2 growths at \$75.00 per plant; and a few with 3 growths at \$90.00 per plant.

PLANTS AND SEEDLINGS

10,000 Plants

You should not overlook this offering. We must have room to pot these same seedlings for our own stock.

This offer includes seedling crosses offered in our Fall 1953 catalog, having leaves 5" and over, those about to flower, and those which have flowered. These have formerly been priced in our list from \$10.00 to \$25.00.

In Lots of 50 or More, \$5.00 per Plant

List of crosses and number of plants in each cross sent upon request. Not more than 10% of any one cross per order.
